

Make **safe decisions** during a tsunami

Know the warnings

- Advice - Stay Informed
- Emergency Warning - Avoid the Area
- Emergency Warning - Evacuate
- Advice - Monitor Conditions
- Advice - Reduced Threat Return with Caution

Act safely

Follow all advice provided in the tsunami warning:

For an **Emergency Warning – Avoid the Area** – get out of the water and move away from coastal areas and waterways that are connected to the ocean.

For an **Emergency Warning – Evacuate** – move away at least 1 kilometre inland. If you cannot leave, move to a sturdy building, at least 10 metres above the usual sea level.

Follow your tsunami evacuation plan

- Walk to your safe area; avoid driving because roads may be blocked by excessive traffic.
- Take your emergency kit with you.
- Ensure your neighbours, family and friends are aware of the current warnings.
- Listen to your local radio and TV for current updates.

If you are evacuated

The Bureau of Meteorology will issue a **Tsunami Watch Cancellation** or **Tsunami Warning Cancellation** when the tsunami threat is over.

The NSW SES will issue an **Advice: Return with Caution** when it is safe to return to the affected area.

Call **NSW SES** on **132 500** if you require emergency assistance or **Triple Zero (000)** if you are in a life-threatening situation.

In life threatening situations call **Triple Zero (000)**

For emergency help in flood, storm and tsunami, call the **NSW SES** on **132 500**.
